ELLFLEX ACE

Single tube CE-AF

CE-AF model spatter proof tube is special rubber blended flame resistance polyurethane rubber tube.

Due to single layer tube, work of peeling coating is eliminated, and directly connected to push-in joint.

As light weight and flexible as general purpose polyurethane rubber tube. Piping is also easy.

Water proof polyurethane rubber raw material is used, and can be used for both compressed air and industrial water.

ELLFLEX CE & CE-S

ELLFLEX CE is 2-layer spatter proof tube with flame resistance polyolefin resin coating in polyurethane rubber tube. Tube fire-spreading and melting are prevented in welding environment. For CE-S type, finished tube outer diameter slim, light weight and flexible bending are achieved. Piping is also easy.
